

Why get involved with EuroArab during your SU ؟?

Hello!!!

First of all, let me introduce you briefly to **“What is the EuroArab project?”**

Our aim is to do what AEGEE does best: break stereotypes and bring cultures together, in particular, Arab and European culture. Although we think that we are very open minded and tolerant, there are so many things that we don't know about each other's cultures. If we don't change this, we will never be able to understand each other.

As you can imagine, we are not working alone. We are working in co-operation with many organisations which allows AEGEE to understand better the Arab World and young Arabs understand AEGEE and young Europeans better. Thanks to these relationships we have built an intercultural team from both cultures which allows us to work together, exchanging knowledge, expertise and ideas in a very enriching environment.

So... If you want to focus on a “hot topic” such as the *Arab Spring* at your Summer University... If you want to discover if our cultures are as different as the newspapers say... If you want to find out about the lives of immigrants in your city... **COLLABORATE with us and make your Summer University even more intercultural!!!**

If you decide to organise a different SU, we can offer you several activities that may interest you, depending on how much you would like to get involved in the project ;)

I want to be a little bit involved

City rally “Religious diversity”

Do you live in an inter-religious city and you are bored of doing the same city rally again and again?? Try to do something a bit different: focus on the different religions that are in your city. For instance, ask the nuns of a church which help immigrants what do they do and then get participants to talk to them for the city rally, they would be surprised!!!

Watch a documentary

After the EN your participants might be tired, and would like a “chilling” night for once. If you have a projector we can provide a documentary, we have some that are not boring!!!!

I want to be involved

Workshops

Don't think about the boring workshops that you are used to... Trying to understand why a woman would or would not want to wear a veil is a topic that would keep participants attention. We can help you to make a WS about breaking stereotypes which is very dynamic!!

Collaborate with a local NGO/Organisation

There are many people working in your cities in social areas, we might have contacts in some of them already. They will be happy to collaborate in order to raise awareness among your participants and explain to them what they do; don't miss that opportunity!!!

There are so many things that we don't know about the Arab World which are very interesting to talk about!! We can work with you to give you information or even training, if possible! Contact us to provide you what you need: every Summer University is different and needs a different approach!! We will be glad to collaborate!!
