

Proposal of collaboration for AEGEE locals

Europe in Exchange

Who we are?

- ✘ **Europe in Exchange** is an AEGEE-Europe project which aims to bring all the **students** and young people in Europe and neighborhood countries the possibility to take part in **mobility** programs

Europe in Ex**x**change

Our objectives

- ✘ Make students **better informed** about mobility programmes and possibilities and its benefits
- ✘ **Increase the number of destinations** and possibilities for mobility in universities inside and outside the current Erasmus zone
- ✘ Lobby for an **adequate structure and funding** of the mobility including countries outside the current Erasmus area in the next program of the European Commission for education mobility
- ✘ Lobby universities for **easier procedures and clearer guidelines for applying** for mobility programs and respect the Erasmus Student Charter.
- ✘ **Reduce the language barrier** to open the possibility to apply for mobility programmes to more students

**We offer you to organize a Summer
University with the theme of:
students' mobility**

**Aim: to learn which possibilities there are
for participating in mobility programmes
and how to support the mobility of
students**

Europe in Exchange

Why to organize a SU with our theme?

- ❌ You don't know how to fill 2 weeks of program? Our trainers will take care of filling the program with activities for several hours.
- ❌ AEGEE members like to travel, so your participants will be interested to know more about different mobility programmes (as Erasmus, EVS, Leonardo,...) and how to participate in them.
- ❌ Your participants will learn how to organize actions for promoting mobility of students which they can implement in their antenna. This way you will help them to become active. And the members of your antenna will learn it too...
- ❌ You will show your participants that AEGEE is more than fun and travelling.

SU with the students mobility theme

- ✘ **Trainers provided** by the Europe in Exchange project team
- ✘ 1-2 fun and creative **activities** per day
- ✘ **Two main parts:**
 - Possibilities for participation in the mobility programs
 - How to contribute to the mobility of students

SU with the students mobility theme

✘ Activities can be:

- Presentations
- Creative workshops
- Simulation games (EVS, Erasmus, integration problems, cultural differences)
- Project writing and management crash-course
- Visits to institutions dealing with mobility programs
- Open café to exchange experiences of different mobility programs
- Youth in Action course

Possibilities for participation of the mobility programs

In this theme, we tackle topics like:

- What programs are there available?
- How to participate in them?
- Where to get information about them?
- What are the benefits for YOU?

How to contribute to the mobility of students

Topics covered in this theme are:

- How to promote mobility programs?
- How to take part in organizing those programs (EVS, Erasmus etc.)?
- How to do Youth in Action project?
- Simulation of participating in Erasmus, EVS etc.
- Integration process in a new country
