1. The BRIDGE- Connecting Mobility and Disability - A Project dealing with the mobility problem of youth with disabilities. The project's main aim is to enable youth with disability to actively participate in creating and developing civil society by joining events and other activities, which will be prepared with proper conditions to travel and experience things that weren't available for them before.

2. Is it that difficult? Be one of the locals to get involved!

Since 1993, the 3rd of December is a day to promote the rights of disabled people. This year someone else will be celebrating this day – AEGEE.

The 3rd December is going to become permanent date in our human rights calendar. This day is designated by the United Nations as the 'International Day of Disabled Persons' for the "the achievement of the full and equal enjoyment of human rights and participation in society by persons with disabilities"

The BRIDGE together with the Human Rights Working Group would like to celebrate this day together with the AEGEE Network and also with another NGO's by raising awareness on the topic of disability and youth mobility.

We invite you to join us by organising something in your local, in your organization, such as, a lecture, an info stand, a half-day seminar, a press release, a play involving people with disability, and raising awareness within your local, by approaching youth organisation for disabled and meet them up to involve them in our organizations.

Getting started is very easy, just contact The BRIDGE, approach us with your questions and we will take care of you. Looking forward to hear from various locals, organizations!!!

3. On the 8th and 9th December 2005, in Brussels, the European Youth Forum will be organising the Information and Networking Day on Social Inclusion in Youth Participation, "Building upon social disadvantage - The role of Youth Organisations" and AEGEE: "The Bridge: Connecting Mobility and Disability" will be there present during these two days, and not only, because the Project was chosen as one of the two best practice projects by Member Organisations. We are very proud to share this information with the Network.
